At every time Natalia starts to design a wedding or evening dress she starts with the clear vision and the clear target to create something unique for the women. Either in order of the customer, for her new collections or as a free work on the search of new design options.

Natalia launched her young fashion label TaliBoelt Design in 2006. Her vision : Designing the dress every woman and bride dreams from. Natalia Boelt has acquired her extensive knowledge about bride fashion, fashion design and tailoring as an autodidact. Natalia's signature is the attention to the detail, use of the ultimate in fabrics and perfection in cut. Her favorite materials are duchesse silks, taffeta, silk organza, silk chiffon, tulle and lace which are often hand embroidered by herself to make it really unicate.

The TaliBoelt Design collections, bride and evening fashion, jewelry and accessories, are mainly hand manufactured by Natalia Boelt. Every dress and every piece of jewelry is an

actual unicum. Natalia is a woman full of passion with a free spirit who loves her work, loves seeing the sparkling eyes of the woman wearing her designs. She is always in search of new inspirations.

When have you started to feel enthusiastic about bride fashion?

At the age of 11 years, I have started to design clothes which, at that time, will be worn by the women and girls with enthusiasm. Always with the aim that the women feel perfectly dressed, self-assured and desirable. I have developed this philosophy further and this philosophy is the supreme commandment for TaliBoelt Design today.

You have made your passion to your profession?

Yes. I have acquired my extensive knowledge about bride fashion, fashion design and tailor's shop as an autodidact and develop it further steadily. An important component was and is the feedback of the customers and their wishes and ideas. I have set up my fashion label TaliBoelt Design in 2006. My idea: Fulfilling the woman's desire for the perfect dream dress for the wedding event or for every other festive occasion.

The love of the detail and the usage of the best materials materials and the perfect execution in the jewelry and accessory design. Favorite fabrics are e.g. Duchesse silk, taffeta, silk organza, silk chiffon, tulle and top.
